The Restless Lake - Surprising Water Dynamics of Lake Whatcom

September 24, 2016 • Noon - 1 pm

Small Pavilion, Bloedel Donovan Park

Come explore the fascinating world of currents, gyres, and internal waves in Lake Whatcom. Join local experts and discover what the latest circulation modeling can tell us about water quality and the spread of invasive species in the source of drinking water for half of Whatcom County.

Another Public Speaker Series Event coordinated by:

Guest Speakers:
Bert Rubash,
Elizabeth Kilanowski
Raincoast Scientific

Hosted by: Whatcom Watershed Information Network
